ANTS DESTROYED IN THEIR NESTS

New Method "Gets" Them at Their Source—
Safe, Permanent, Effective

The Antrol system is adapted to any size house or garden and quickly destroys all species of sweet eating ants. It is composed of small glass containers and is a special formula of syrup. The containers are partially filled with syrup and placed about the outside edges of the house or along "ant" trails in the garden if the infestation occurs there. The ants smell the syrup, eat it and then transmit its mild poison to the queen in the nest. Soon the entire ant colony is destroyed!

The complete system should cover every 15 feet around the outside of the house or "ant" trails in the garden.

Prices—Antrol sets containing 4 containers and 1 4-oz. bottle of syrup, 95c; Antrol extra containers (each), 15c; Antrol syrup, 4-oz. bottle, 45c; pints, \$1.00; gals., \$4.00.

ROYAL PEAT LITTER

Royal Peat Litter, an imported German product, has proven to be of untold value in successful poultry raising. It is used from the very beginning on the floor of the brooder house, protecting the delicate baby chicks from many of the well known brooder diseases, such as Coccidiosis and White Diarrhea—these germs cannot develop in a litter which is rendered infertile for their existence. Per bale, \$2.25.

SEED DISINFECTANT

SEMESAN

For flower and vegetable seeds. Harmless to seed, but deadly to plant disease organisms. Effective in controlling wilt, rot, scab, damping off; for stem rot in Asters and other flowers, wilt in Tomatoes, Cucumbers, Onions and other vegetables; for hard rot and scab on Gladioli; for disinfecting seed beds in cold frames, greenhouses, or garden. In many cases doubles the yield. Easily applied, either as a dust or dip. Treatment requires only

1 oz. for 15 lbs. of seed.

Prices: 2 ozs., 50c; 1-lb., \$2.50; 5 lbs., \$11.75.

SEMESAN JR.

Especially effective in controlling disease infections injurious to Corn. Without harming the seed embryo, it protects it from rotting in the ground and makes possible earlier planting; generally results in improved germination, more vigorous roots and plants, better stand, earlier, larger and better crops. Used successfully by many of our customers last year. The best crop insurance against mould in case of wet, cold weather after planting. An inexpensive dust, easy to apply. Will not injure or clog drill. 2 ozs. only for each bushel of shelled corn.

Prices: 4 Ozs., 40c; 1-lb., \$1.50; 5-lbs., \$7.00.

SEMESAN BEL

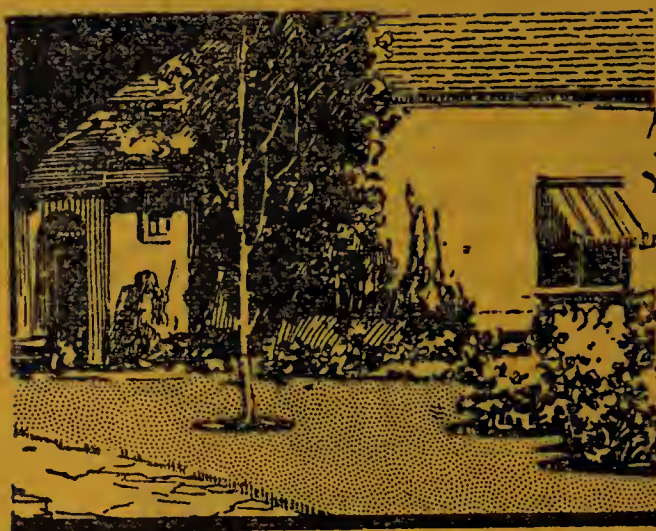

An instantaneous dip for Potatoes. Effectively controls scab, rhizictonia and black-leg. Used by thousands of large growers. Recommended by Experimental Stations and farm experts in all parts of the country. Material is easy to apply, low in cost. Simply mix, dip, drain, dry and your seed potatoes are ready for planting. Increases the yield and the quality, reduces culls. Whether you grow a small patch or large acreage, we recommend

that you treat your planting stock with Semesan Bel. Requires 1 lb. for 16 to 20 bushels of seed.

Prices: 4 oz., 50c; 1 lb., \$1.75; 5 lbs., \$8.00.

These are all Poisons and Cannot Be Mailed

Everything You Grow Needs Plant Food

Your lawn, flowers, vegetable garden, shrubs, and trees—yes, everything you plant—needs nourishment—a balanced ration. Most soils have been depleted of available plant food. That is why you must add plant food to the soil if your gardening efforts are to be successful.

We recommend that you feed everything with Vigoro. It is the complete plant food made by Swift & Company, containing, in a balanced form, all of the plant food elements plants must get from the soil. It encourages root growth as well as top growth, and when fed regularly to the lawn it helps produce humus in the soil.

Use Vigoro this year and achieve real gardening success. It's economical—4 pounds feeds 100 square feet of gardening area.
